SHERIFF'S PROCLAMATION.
IN THE HIGH COURT OF JUDICATURE AT BOMBAY.
ORDINARY ORIGINAL CIVIL JURISDICTION SUIT NO. 29 OF 1876.

HARICHUNDRA MOROJEE, of Bombay, Hindoo Inhabitant, residing in Funnuswady.
Plaintiff.

SHEOSHUNKAR MOROJEE and RAMCHUNDRA MOROJEE of Bombay, Hindoo Inhabitants residing in Funnuswady, without the Fort walls of Bombay, and UNPOORNA BAI (alias KASHIBAI), widow of the late SADANUND RAGHOBA, and GAJANUND SADANUND, both of Bombay, Hindoo Inhabitants, at present residing in a house No. 98, situate at Gaiwady, outside the Fort ..... Defendants.

WHEREAS by a decree made in the above suit on the 21st day of December, 1882, it was ordered (amongst other things) that the Sheriff of Bombay should sell the lands and premises hereinafter mentioned, that is to say, a piece of land with a house thereon situate at Funnuswady Lane on the west side thereof in the Registration Subdistrict of Bhoiwadi and containing by admeasurement eighty feet in length and twenty-five feet in breadth, be the same a little more or less, and bounded on the east by the Funnuswady Lane as aforesaid, on the west by the property of Madhowrao Canoba, on the south by the range or chawl of the late Sooparam Luximonjee, and the north by the house of the late Baiorishna Govindjee, and registered under No. 141 of Pension and Tax in the books of the Collector of Land Revenue and assessed under No. 4 in the books of the Assessor of Municipal taxes for the Town and Island of Bombay.

The revenue payable to Government for Pension and Tax is Rs. 1-1-2.

NOW IT IS HEREBY PROCLAIMED and NOTIFIED that on FRIDAY, the TENTH DAY OF AUGUST, 1883, at the hour of 4 o'clock in the afternoon, the Sheriff of Bombay will under and by virtue of the said decree, put up for sale by Public Auction on the premises to the highest bidder and without reserve the right, title and interest of the Plaintiff Harichundra Morojee and of the Defendants Sheoshunker Morojee and Ramchundra Morojee in the said lands and premises.

The following is a list of the rights, charges and claims to which the said lands and premises are supposed to be liable:—A claim by Sheoshunker Mankoba for Rs. 550, and interest thereon at one per cent. per mensem till payment due on an Indenture of Mortgage, dated 22nd September, 1882, whereby the said Plaintiff mortgaged his one-third share in the said lands and premises to the said Sheoshunker Mankoba to secure the repayment of Rupees 550 and interest as aforesaid.

Intimation is given that the Court does not warrant the correctness of the above description of the premises nor the title of the said Hurichandra Morojee, Sheoshunkar Morojee and Ramchundra Morojee to the same or to any interest thereon.

The said Harichundra Morojee, Sheoshankar Morojee and Ramchundra Morojee have obtained permission to bid at the sale.

Of the price of each lot, one-fourth shall be paid forthwith when the lot is knocked down to a purchaser. The remainder of the purchase-money must be paid in each case by the purchaser to the Sheriff on or before the fifteenth day after the sale.

The sale will not become absolute until confirmed by the Court.

In default of payment in whole or in part as above prescribed, any sum paid as deposit will be forfeited to the Government and the lot will be sold free from any interest therein or in the proceeds thereof of the prior purchasers.

For further information and conditions of sale, application should be made at the Office of the Sheriff.

COMMERCIAL INTELLIGENCE

WEDNESDAY EVENING, JULY 4.

THE few alterations reported in Stock Exchange Securities are of a favourable character. Consols have advanced to 100⅛; Four per cent. Rupee paper is 1-16, and 4½ per cent ⅛ higher; £80 5-16 and £84, respectively, being the closing rates per thousand rupees.

In the General Produce markets Seeds are dull; Wheat very weak at a decline of 1d. per cental, and should the prospects of the home harvest continue satisfactory, we may have a further drop. We have heard nothing further regarding the expected deficiency in France referred to by Reuter nearly a fortnight ago.

The Manchester market is quiet but steady.

The Liverpool Cotton market yesterday closed dull; Surats quiet; arrivals easier. Sales 6,000 bales, of which 700 bales were Surats. Good Dhollera (good clause), May-June shipment, 4¼d. There is no change in the New York markets. The figures to date are given below :—

There is no alteration advised from Calcutta. At present there are not many mercantile bills offering, and the future of Exchange is rather uncertain. Bar Silver is steady. The shipments of the week amount to £10,000 for Bombay, and a like sum for Calcutta. We have also advices of £40,000 in Gold being on the way to this port.

THURSDAY, JULY 5, 1883.

THE interesting telegram from our Simla correspondent which we publish this morning gives the latest rumours and surmises with regard to the future of the Jurisdiction Bill. It is instructive in so far as it indicates the prevailing beliefs at the seat of Government with regard to a measure which has assumed a factitious importance not rightfully belonging to it in any shape. But it is necessary to bear in mind that the rumours and surmises referred to, however significant, must be taken with considerable reserve. No final decision with regard to the Jurisdiction Bill has as yet been arrived at; none will be come to until the subject has been discussed by the Executive Council, and such discussion has not as yet taken place. Our own information tallies with that of our correspondent on the important point that the Home Government, while disposed to leave the Government of India free to act on its untrammeled responsibility, is by no means in favour of the Withdrawal of the Bill. The political danger of allowing a precedent to be established which would encourage the disaffected to seek to avert or obtain measures by means of an agitation avowedly resorting to the weapons of intimidation and menace, have presented themselves [illegible] in London than [illegible] unfortunately they have to the Bransons and the Britannici of Calcutta. It will probably be found that the Government will discover some method of reconciling the maintenance of British "prestige" and British "power" in India in connection with this Bill, which the *Times* gloomily declares is destined to sacrifice one or the other beyond recall.

THOSE who agree with Sir James Caird that various parts of India are over-populated, and who see in over-population the source of serious difficulty and danger, will examine with interest the admirable Census Report of this Presidency recently published by the Bombay Government. Nothing can be fuller and more complete as far as it goes than this report, and to any one who will take the trouble to master the figures, and to draw his own independent conclusions, the tables will be found to furnish most valuable evidence. The special point on which accurate information is most required is the ratio of population to productive area. In all the civilised countries of the world the pressure of population per square mile is for general statistical purposes accepted as the most useful and practical calculation that can be made, and to enable us to compare our statistics with those of European countries it is necessary to adopt the same basis of inquiry. But in the case of Indian provinces, if serious error would be avoided, there are some special points to be noticed and carefully provided for. In the first place, as the compiler has been careful to point out, the areas are only approximately correct, and until the great Trigonometrical Survey is completed no accurate information on the subject of areas can be obtained. In the second place, the areas now given include a large proportion of uncultivable waste land in the shape of mountains, hills, rocks, marshes, and the like. Unproductive land of this description greatly reduces the average pressure of population per square mile; and the apparent want of discrimination shown by including this land without comment much impairs the accuracy and the usefulness of the official table in which the density of population per square mile is recorded in the Census Report. Again, there is a very large area of land technically known as "alienated," which is wholly or partially private property, and not subject to the ordinary survey tenure. This land appears in the statistics of agriculture under the general head of "favoured." In calculating the average pressure on the productive area it must be clearly understood that this "favoured" land stands on a special footing. It is not public State land which any one is at liberty to appropriate. It is to all intents and purposes private property, already fully appropriated, and is only available to a very limited extent in relieving the increasing pressure on the ordinary State land. Bearing in mind these important limitations, we shall obtain a fairly accurate idea of the real pressure of population upon the productive State land by deducting from the total area, first, the area that pays no revenue, uncultivable waste, etc.; and secondly, the area of revenue-paying "favoured" land, occupied and unoccupied. The productive area remaining, compared with the specific population, will furnish the nearest approximate estimate that can at present be formed of the pressure of population on the productive area of ordinary State land. The undermentioned Deccan and Southern Maratha districts stood apparently as follows in 1872. The averages shown are, of course, approximate only, but they probably convey a substantially accurate idea of the state of things which prevailed a few years before the famine of 1877 :—

	Ordinary State Land. sq. mile.	Total population 1872.	Average per sq. mile.
Ahmednuggar	3,167	778,337	197
Poona	3,332	911,303	303
Sholapur	1,373	719,375	221
Satara	2,211	1,052,121	476
Belgaum	1,845	944,085	512
Dharwar	2,661	889,071	380
Kaladgi	3,390	816,273	240

The population above shown had, of course, materially increased before the disastrous famine years of 1877 and 1878; but the figures given are suggestive of the over-crowding which had long existed in the affected districts, and furnish at least some explanation of the appalling severity of the distress at once occasioned by the failure of the usual rainfall in 1876. The census of 1881 as compared with that of 1872 reveals the fact that with the exception of Sattara, the population of which is practically stationary, the districts show an aggregate diminution of no less than 550,244 in the last nine years. Assuming that the normal rate of increase in these districts has hitherto averaged about 1 per cent. per annum, an estimate which is probably below the mark, any one can calculate for himself, on the basis of the present figures, the aggregate numbers and the pressure per square mile which would have resulted had not the famine occurred. If the basis of calculation adopted be approximately correct, the results will, we think, be found most suggestive, if not startling. But perhaps it may be urged that the Deccan is an exceptional district, that the rainfall is more precarious and the physical conditions more uncertain than in other parts of the Presidency. Let us examine, then, the condition of Guzerat, the Garden of Bombay, where the rainfall and all the conditions of agricultural life are admittedly more constant. Guzerat, we are told, is the most flourishing province of Western India. Let us see how far the statistics of the recent census bears out this position. The following table exhibits the total population, ascertained by the recent census, compared with the productive area of ordinary State land calculated as above in the case of the Deccan districts :—

	Ordinary State Land Sq. miles.	Population 1881.	Average. per sq. mile.
Ahmedabad	2,405	856,324	356
Kaira	789	837,871	1,064
Panch Mahals	[illegible]	[illegible],179	[illegible]
Broach	764	320,630	427
Surat	1,071	614,108	573

As stated above regarding the Deccan averages, these figures are of course approximate only, but they are probably far nearer the truth than the very moderate figures given in the comparative table which precedes chapter I. of the Census Report. The extreme pressure in Kaira on the State land is occasioned by the fact that 306 square miles, or nearly one-fifth of the whole area, are uncultivable; while of the revenue-paying area, consisting of 1,282 square miles, only 756 are ordinary Crown land, the remainder, 526 square miles, being classed as "favoured," and owned by persons who claim to hold as proprietors. In Panch Mahals the agricultural statistics appended to the Census Report show that there is an exceptional amount of unoccupied cultivable land, amounting to 598 square miles, of which 251 are classed as ordinary and 347 as "favoured." Under these circumstances the local congestion which the figures appear to suggest is probably remediable, and the pressure on the soil is not at present by any means so serious as in the remaining districts. Assuming, then, that the average pressure per square mile in Guzerat has been more accurately stated than in the Census Report, where the specific population has been broadly compared with the total area, productive and unproductive, the question arises, Are the figures now shown indicative of prosperity, or of misery and over-crowding? To our mind it seems tolerably clear that rich Guzerat with its teeming millions is by no means in a healthy condition. If the figures are correctly understood, the province is distinctly and dangerously over-crowded in every district except the Panch Mahals; and the extraordinary mortality in Broach, owing, we are told, to a temporary and partial failure of the crops in 1878, is terribly suggestive of the danger which seems to menace all the districts of Guzerat on the occasion of similar local scarcity, which must from time to time be expected. The population of Broach is officially declared in the Census Report to be 23,392 less than it was in 1872, and this diminution is wholly attributed to the cause already indicated. It would be satisfactory could some further light be thrown on a fact which will, we fancy, be to many as new as it is surprising to ourselves. [illegible] sickness reported from Broach, sufficient to account for what must be deemed a very remarkable check to population, and the subject seems to be well deserving of full investigation.

A comparison of the tables now furnished for the Deccan and Guzerat shows clearly, what is sufficiently notorious, that Guzerat is much more thickly populated than the Deccan. The increased pressure per square mile in Guzerat is, in fact, a tolerably correct measure of the superior fertility and natural advantages of that province. But now that the capacities of both provinces have been equalised by the burden of a redundant population, it is hard to see in what respect the proletariat of Guzerat—the Kolis, Bhils, Dublas, Dhers, numbering, be it remembered, nearly one million souls—is superior in natural advantages to the proletariat of the Deccan or Bengal. No doubt there are in Guzerat a considerable number of excellent and thriving cultivators whose prosperity is well known, and whose skill and industry have transformed a large portion of the province into a garden. But for every prosperous Patidar there are at least five Koli, Bhil, or Dubla occupants who are living with their families from hand to mouth; and it is the normal increasing mass of depressed cultivators, not the exceptional and flourishing minority, who now demand the most earnest and careful attention. The problem which is now exciting so much attention in Bengal and the Deccan is, in our opinion, by no means peculiar or exceptional. Sooner or later, as the pressure on the soil increases substantially, the same phenomena will assuredly manifest themselves in all parts of India. Natural fertility and superior natural advantages will for the time being stave off the evil day in the more favoured districts, but unless production can by any means be increased the time will assuredly come, in some places sooner, in some later, when the pressure on the soil will become dangerously severe, and it will task the efforts of our wisest administrators to tide over the difficulties and dangers which must inevitably arise. It is well known that the subject of over-population is regarded as one of extreme gravity by several of our chief authorities in England. The Duke of Argyll, Sir James Caird, and Mr. Giffen, President of the Statistical Society, have done [illegible] on the subject. In India the least hopeful sign is that the gravity of the case seems generally to be underrated, if not intentionally ignored. Most officials seem to make it a point of honour to proclaim the superiority of British revenue systems, and the alleged flourishing condition of the State peasantry; while the official statistics are apparently prepared so as to exhibit the average pressure of population in the most moderate light. If the Deccan and Guzerat be really over-populated, it is far better and far wiser boldly to recognise the fact, and take measures accordingly, than, ostrich-like, to shut our eyes to the danger, and proclaim that all's well. A disease correctly diagnosed is often half cured. Unfortunately just at present our so-called Indian experts seem to be hopelessly at variance amongst themselves, and this state of things is, in our opinion, neither healthy nor hopeful.

THE telegram from Teheran reporting a fresh Treaty between Russia and Persia is not very explicit, and does not appear to be authentic in regard to details. The agreement is said to be for the purpose of regulating the north-eastern frontier of Persia, but no particulars are given as to its provisions in this respect, except that Persia will retain Khelat-i-Nadiri, and that Merv is spoken of as Russian territory. On the other hand, we are informed that Persia will surrender refugee Turcomans. This, however, throws no light on the principal provisions of the Treaty. It is impossible, therefore, to express any opinion on the matter. It will be in everybody's recollection that, when the north-western border was settled [illegible] ago, the eastern extremity of the frontier line was left in the unsatisfactory condition of being "lost in the sandy desert." As Russia was bearing down eastwards, it was necessary that a line of demarcation should be drawn [illegible] between Persian and Russian territories sooner or later. Until Russia appeared on the scene, Persia had no frontier northwards. She had historic claims to Merv and huge, undefined tracts of Central Asia. The Turcomans, however, had long since repudiated the authority of the Shah, and, as a matter of fact, the territory actually occupied by Persia fell short in several places, of the line subsequently agreed upon with the Russians. As the authority of the Shah was as feebly represented in the north-east as in the north-west, the frontier negotiations reduced themselves to the simple question of how much territory Russia could filch from Persia. She set her eyes on Kelat-i-Nadiri, and had she obtained it, she would have commanded the road to Meshed across the Gulistan Mountains, and could have descended on Meshed (58 miles distant) or Surrukhs at a moment's notice. Garrisons of some sort were, however, in Kelat and Surrukhs, so that Russia could possess herself of neither without a direct cession of territory. As objection might have been raised to this, she has prudently withdrawn her demand. It could hardly be contended that Kelat-i-Nadiri belonged to the Turcomans since it takes its name from Nadir Shah, who considered it one of the greatest of his strongholds. We have no doubt, however, that Russia will endeavour to appropriate all the territory up to the base of the Gulistan Mountains (except Surrukhs), if she does not obtain also the more fertile of the slopes. As the frontier of Afghanistan in this direction is rather shadowy, it will be necessary to keep watch on the Ameer's territory. It would be very desirable to have the north-western frontier of Afghanistan definitely defined, so that the only real point is to see that the Ameer gets as much as he is entitled to. Whatever be the provisions of the Russo-Persian Treaty, it is reported to be accompanied by a very [illegible] notification, namely, that if other Powers protest against the Treaty, Russia undertakes to reply to them. "The other Powers" in this case signify, of course, England; and the assumption of Russia to discharge the functions of the Persian Foreign Office is a piece of gratuitous impertinence, which, we should imagine, the Czar's counsellors were too astute to commit.

THE absence of Mr. Ollivant, the Municipal Commissioner, on leave in England may very well be turned to account for practical purposes in connection with much-needed municipal improvements in Bombay. The Town Council at its meeting yesterday decided to recommend that Government should extend his leave of absence in order that he might study certain questions which have a direct bearing on the effective administration of the affairs of this city. For instance, information is much needed in regard to the system of assessment

GOVERNMENT AND THE JURISDICTION BILL.

(FROM OUR OWN CORRESPONDENT.)

SIMLA, JULY 4.

From private letters received from home, it would appear that the Cabinet is opposed to the withdrawal of the Jurisdiction Bill in its entirety, although it might consent to a compromise which would practically leave things *in statu quo*. The Indian Council as a body opposes the Bill. The Indian Government is not unfettered in regard to it. The majority of the opinion received has come from the officers of local Governments who plead against the Bill. The compromise proposed has to show that some of those who propose such compromises *are* not actuated by friendly feelings towards the Bill, but rather by feelings that the irresponsible method in which both parties have indulged renders the complete withdrawal of the Bill impossible.

RELEASE OF THE IMPRISONED EDITOR.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, JULY 4.

Surendranath Bannerjee was released from jail this morning. The authorities, to avoid a demonstration, released the prisoner long before daybreak, although such a proceeding is against the rules of the institution. By six o'clock, although it was raining hard, innumerable conveyances were drawn up in the vicinity of the Presidency Jail, and many people were present on foot. There was a strong body of police present to maintain order and disperse the crowd, as it was expected that there would be a large gathering. When it was ascertained that Surendranath had already been released, and was at home, much disappointment was expressed, and the multitude wended its way to the Baboo's house. Here presentations of flowers and congratulations were showered upon him all day long. The Baboo left for Barackpore last night, to visit his family. He looks none the worse for his confinement.

THE LIEUTENANT-GOVERNOR OF BENGAL.

THE INTERRUPTION OF RAILWAY TRAFFIC.

Owing to the interruption on the G. I. P. Railway, no Bombay and Madras mails have been received to-day; and for the same reason the English mails of the 15th June, due at Calcutta to-morrow morning, will not arrive here till Friday.

THE outgoing mail-steamer Ballaarat sailed yesterday afternoon without the Viceroy's and the Punjab mails, which are still detained on the B. B. & C. I. Railway, owing to the floods. The Calcutta and Bengal mails arrived at the Borcebunder terminus of the G. I. P. Railway yesterday forenoon, four hours late. A telegram received last night states that the water was beginning to subside at Bhosawul. All passengers and coasting traffic beyond Bhosawul junction has been stopped since yesterday. There is no perceptible difference in the floods between Broach and Surat.

AT the usual meeting of the Town Council yesterday, it was resolved, on the motion of Mr. Dosabhoy Framjee, that the Corporation should be requested to apply to Government to extend Mr. Ollivant's leave of absence for a period of three months more, in order that he might be enabled to examine the systems of municipal administration in the principal cities of England and in Paris, more especially with reference to the water-supply, drainage, and conservancy. The Council were of opinion that, should Mr. Ollivant be willing to undertake the work, the city would be benefited by his experiences. On the motion of Dr. Blaise, the Council resolved to ask the Acting Municipal Commissioner (Dr. Weir) to apply to Government for the services of a medical officer so long as the Health Officer was acting for the Municipal Commissioner. In introducing his motion, Dr. Blaise called attention to the accumulation of dirt and filth in some parts of the native town, and said that the appointment of a qualified medical officer was necessary to keep the town in a state of healthiness, thus making it as little liable as possible to cholera epidemics. The proposition was carried unanimously.

THE Bank of Bombay yesterday reduced its rates of interest and discount one per cent. all round.

H. H. THE SULTAN OF ZANZIBAR'S steamer Madoea, in which Colonel F. Brine, R.E., left Bombay *en route* to Madagascar, arrived on Tuesday at Zanzibar, twelve days from here.

THE Commission on the Oude Rent Question, which broke up on Mr. J. B. Lyall's appointment to Mysore, will probably re-assemble in August at Naini Tal under the presidency of the Hon'ble J. W. Colvin.

IT is stated that a despatch has been received from the Secretary of State, sanctioning certain proposals of the Government of India for the reorganization of the Indian Marine service.

THE latest news from the Bilochistan Agency is that the Murris are now well in hand and are not likely to give trouble; but that the Pathan tribes in the Yaghistan beyond the border still require some watching, as their restlessness may lead them to raid upon the valleys, the villages of which are now enjoying the prosperity incidental to British protection.

WE have received a pamphlet entitled "The Great Contempt Case; compiled by Ram Chandra Palet." The pamphlet consists of 112 pages, and contains reports of the legal proceedings, affidavits, &c., newspaper articles (from the *Statesman* and native papers), and reports of meetings of sympathy. It will be seen from our Calcutta correspondent's telegram that Surendronath Bannerjee was released from prison yesterday on the expiration of his sentence.

ON the recommendation of the Punjab Government, the Royal Humane Society has awarded a bronze medal and certificate to Nur, the boatman of Dera Ghozi Khan who saved two children from drowning in the river Indus, during a heavy storm, in July last.

THE *Indian Daily News* states that rumours which, of course, require confirmation, have lately been afloat in the Postal Department to the effect that Mr. F. R. Hogg, C.S., Director-General of the Post Office, intends at no distant period to proceed home, probably to retire, and that some new arrangements are likely to be announced soon after the return from leave of Mr. H. B. M. James, B.C.S., the Postmaster-General of Bengal.

THE Madras opinions upon the Ilbert Bill have been received at Simla. The Madras Government, to quote the Viceroy's speech in Council, were on the first occasion "divided among themselves, and the opinion given in favour of the Bill was only decided by the casting vote of the Governor of that Presidency," the fact being that Mr. Carmichael and Mr. Hudleston condemned Mr. Ilbert's proposals as "impolitic and not expedient," while the Governor himself and Sir Frederick Roberts considered it was a pity a question was raised which affected so few people, but that logically and in equity no difference could be made between English and native Covenanted Civilians. In the despatch which is now under consideration the Government of India, while admitting the strength of the objections urged by the Madras Government, the old ones; "but Sir Frederick Roberts has added a minute pointing out the original mistake which was made when natives were allowed to enter the Covenanted Civil Service, and urging that in future all appointments of natives should be solely by nomination."

IN one of the recent *Gazettes* it is notified that if an officer on leave wishes to have his leave extended or commuted by the Secretary of State, he must first produce evidence that the consent of the Government to which he is subordinate has been obtained. This alteration, an up-country paper remarks, will make a considerable difference to officers going on leave. "Hitherto nothing has been commoner than for an officer to take half the leave at his credit, trusting to the power of getting such extensions as his funds and circumstances permitted, as any leave due has always hitherto been granted by the India Office as a matter of course. All this has now been changed. Speaking broadly, it may be said that leave depends almost absolutely upon the discretion of local Governments. It is not indeed, as a matter of fact, likely that any local Governments will at present introduce very violent or unreasonable changes, and no great alteration will be apparent for some time to come; nevertheless it is becoming day by day more plain that in throwing on to such Governments the entire responsibility for the control of leave—a responsibility which they cannot be properly called on to bear—the Government of India have distinctly shirked a task which properly devolved on themselves, and have adopted a course which tends neither to the public advantage nor to the contentment of Civil officers. The very worst set of rules that could be invented would be preferred to a system, if such it can be called, under which no one can be certain of what leave he can get."

THE *Indian Railway Service Gazette* says that Mr. Reade, the Consulting Engineer to the East Indian Railway, thinks that more work should be got out of every locomotive engine in India, and suggests if it would be obtained if each one was provided with two or more sets of drivers and firemen. Experiments on this suggestion are being made, and if the results are satisfactory, the system of double crews to each engine will be introduced.

A PIECE of news comes from Oxford, the *Pall Mall Gazette* says, which has a strangely old-world sound about it. It appears that Mr. Grissel, the Papal Chamberlain whose recent visit to Pembroke College had a somewhat tragi-comic ending, has now returned from Rome and has bravely announced his intention of resuming the scene of his unexpected martyrdom. Whereupon sixty-one out of the seventy resident undergraduates, with the undergraduates, have petitioned the Master and Fellows to prevent "this person, notorious as a proselytising schismatic," from again entering within the precincts of this Church foundation." The young Protestants clearly feel no confidence in their power of self-restraint if the threatened invasion takes place; and as their last outbreak had very serious consequences for some of them they are perhaps wise in seeking to be saved from themselves. But what will the Master and Fellows do? It is all very well for Oxford to "whisper from her towers the last enchantments of the Middle Ages," but this outcry for persecution in the market-place is a more troublesome matter.

THERE is bad news of the American army, if the so-called disclosures made by a portion of the press are to be believed. It seems that various officers in good positions, whose names are all fully set forth, have taken to gambling heavily and then to embezzling Government funds to pay their debts of honour. One of the most remarkable statements made is that a certain American colonel was tried by court-martial in 1875 on a second offence of obtaining money on duplicate pay accounts, was only slightly punished, and has made use of his opportunity to do it again.

BY an explosion caused by lightning in the Scutari Powder Magazine 150 persons, soldiers and civilians, were killed and 53 wounded. Two hundred barrels of gunpowder and 6,000 cartridges exploded, forty workshops being totally destroyed. The lightning has been doing great damage in other quarters. Recently three workmen were killed near Laibach, and one afternoon later a girl was killed in the Vienna streets.

IN reporting on the occurrence of small-pox in Bradford, Mr. Butterfield mentions a case which should have especial interest for anti-vaccinators. Out of a numerous family, the solitary one to take the disease was the only member who was unvaccinated, and he had it in so severe a form as to lose his life. All the other members of the family were revaccinated, and the disease did not spread. It is worthy of note, the *British Medical Journal* says, that no precautions, except vaccination, would have availed to prevent infection in this case; for the carrier of the disease was not, at the time nor afterwards, himself a victim.

A LIVERPOOL correspondent of the *Daily News* states that at a recent conference of labour representatives in that city it was decided to invite Mr. James Samuelson, a prominent local Radical, to become a labour candidate for the borough at the next general election. Mr. Samuelson has replied, urging the committee to obtain a representative from their own ranks, but promising in case they cannot do so to become their candidate.

SAYS *Truth*:—We have heard a great deal of late about the poverty of the Universities, but the dance-sheet of Oxford for 1882, which has just been published, is far more satisfactory than could have been expected. The income for the year was £53,900, including £13,350 from estates, £4,000 from the Press, £24,700 from fees and dues, and £11,300 from miscellaneous sources. The expenditure was £51,267, including £4 200 for interest and sinking fund on loans. The examination fees amounted to £5,000, and the payment to examiners came to £4,067. Proctorial fines only produced £267; degree fees, £9,000; University dues, £8,100; matriculation fees, £1,900. Professors cost £8,063, and University officers £4,580.

ACCORDING to advices from Smyrna, Ali Pasha, the deposed Governor of that province, has been examined on the charge of neglect of duty, as shown by his failure to suppress brigandage. He asserted that with a gendarmerie half-starved and of insufficient numerical strength, to whom there were large arrears of pay due, it was absolutely impossible to put down brigandage. It is further stated that a large force of brigands recently marched into the port of Kuluk and seized thirty passengers of the steamer Bellona, who were staying at the Custom-house, and carried them off into the mountains. Among the prisoners was M. Sardon, a brother of the celebrated French author. He was, however, allowed to return, with a message from the brigands to the effect that they did not wish to embroil the Porte with the French Government. For the others a ransom of 2,000 Turkish liras per head was demanded; but four were subsequently released on payment of 700 liras.

DISCUSSING the question of the annexation of New Guinea (which the Home Government have since declined to confirm), the *Pall Mall Gazette* of June 15 says:—"The Cabinet, when it comes to deal with the action of Queensland in annexing New Guinea, will do well to remember that the question thus raised is far wider than that of the government of the Papuans. It goes to the very root of the whole problem of the empire and the relation of the Home Government to its colonies all over the world. Nor is it at all likely that the Colonial Governments will allow Ministers to forget that the annexation of New Guinea is but typical of other annexations already contemplated by our dependencies in the Southern Seas. Victoria and the other Australian Governments are said to be pressing for the annexation of the New Hebrides, the Solomon Islands, and of other groups in the Pacific. How wide an area may be covered by the reference to other groups no one can say, but as a New Zealand Prime Minister not ten years ago demanded the establishment of a British protectorate over every island in the Southern Pacific, it is probable that it is meant to cover a very wide area indeed. The future of Oceania, in short, is coming up for settlement; our colonists at the antipodes have already made up their minds as to the proper solution, and unless the Home Government has equally definite views on the other side, and is prepared to enforce them, the issue will be decided in Australia, not in Downing-street."

MILITARY NEWS.

OUR correspondent "Service," in his letter which appeared in our issue of Saturday last, contends that as field officers cannot be induced to go by the offer of 6 months, the only way to keep the number of Colonels and Majors within bounds is to have only a certain number borne on the rolls of the Staff Corps, and to refuse to promote any in excess of that number, except by brevet. We do not think that our correspondent's suggestion will find much favour with those most interested. In the first place, it is a mistake to suppose that the inducement of succeeding to the off-reckonings prevents field officers from accepting a bonus. On the contrary, the success of the commutation scheme proves how gladly officers retire when any reasonable inducement offers. In the second place, to check Staff Corps promotion by limiting the numbers in each rank, and thereby keeping old officers on small pay, would be intolerable. It should always be remembered that the Indian officers are not responsible for the Staff Corps with its endless anomalies and its tendency to turn everybody into Colonels. It was instituted by Government, and Government, not the officers, must suffer from the failure of a system so extravagant that it promotes everybody, yet satisfies nobody. If Government would consent to allow all furlough and leave to count towards pension, and to extend the concessions of the commutation scheme, numbers of senior officers would at once close with the offer, and the present stagnation in promotion would come to an end.

A LARGE camp of exercise is to be held at Bangalore early in January next, which His Excellency the Commander-in-Chief (Sir Donald Stewart) and Staff have accepted Sir Frederick Roberts' invitation to attend.

COLONEL T. N. WALKER, Bengal Staff Corps, has sent in his papers to retire.

WE stated some time since that General Harding had applied for permission to have his Bombay residence, the Cooperage, made available for the accommodation of unfortunate houseless subalterns, during the time Head-quarters are absent. It is now stated that the rates of house-rent chargeable to officers permitted to occupy quarters in the Cooperage at Bombay will shortly be fixed at Rs. 30 per mensem for married officers, and Rs. 20 for single officers.

MAJOR AND BT. LIEUT.-COL. H. F. PRITCHARD, R.A., retires from the service.

CAPTAIN G. W. R. FULTON, R. A., proceeds from Meean Meer to England, to join No. 2 Battery, 1st Brigade, Northern Division, into which he has been promoted.

CAPTAIN R. GORDON, 22nd Punjab Infantry, will officiate as Brigade Major, Meean Meer, during the absence on leave of Captain Kelly.

SURGEON-MAJOR T. RAMSAY, A.M.D., is transferred from Allahabad to Jullundhur in medical charge of the Station Hospital, *vice* Brigade-Surgeon Kerr, who goes to Sialkot for similarduty.

SURGEON ARMSTRONG, in officiating medical charge 11th N.I., will be temporarily employed under the North-Western Provinces Government.

LIEUTENANT COLE succeeds to the interpreter-ship of the 1st Royal Welch Fusiliers, *vice* Morris, resigned.

LIEUTENANT TAYLOR, Royal Munster Fusiliers, resigns his probationary appointment, and is posted to the 2nd Battalion, Wiltshire Regiment, pending orders from the Horse Guards.

LIEUTENANT ATKINSON, 2nd Royal West Surrey Regiment, on sick leave at home, joins the 1st Battalion as a supernumerary, and comes out next trooping season.

LIEUTENANTS WHYTE, Seaforth Highlanders, and Beaver, Lincolnshire Regiment, have been appointed to the 4th Bombay N. I. and 9th Bengal N. I. respectively, as probationers for the Staff Corps.

A SCHEME for the formation of an Ambulance Establishment for experimental purposes in Bombay (including the Sind frontier, but not the Quetta [illegible] and is at present under the consideration of the Government of India.

THE Government of India have approved of the orders issued by His Excellency the Commander-in-Chief, for the relief of the detachment of Royal Artillery at Attock, from Battery Head-quarters at Campbellpore, every two months between 1st April and 1st October, and every three months between 1st October and 1st April.

IT is stated that a supply of warm underclothing has been sanctioned for the use of patients in hospitals at hill-stations in the Bombay Presidency and in the Quetta District.

THE Bombay Medical Department have been authorized to supply, temporarily, the Roman Catholic Convent School at Poona with medicines from the Staff Hospital at that station.

A MONTHLY allowance of Rs. 30 has been sanctioned for the Regimental Medical Officer at Deesa for the performance of the civil medical duties of the Cantonment.

THE BELLRINGERS.—The "Lynch Family, Bellringers, Instrumentalists, and Vocalistes," advertise an attractive programme for their performance at the Gaiety Theatre this evening; and as this style of entertainment is something new in Bombay, there will probably be a big house.

UNSCRUPULOUS TRADESMEN.—Goolam Hoosein Ajee, Purshotum Canjee, and Bhimjee Kallian, petty shop-keepers in the native town and retail dealers, were yesterday convicted by Mr. P. Ryan of having in their possession false weights. They were fined respectively Rs. 10, Rs. 15, and Rs. 20.

THEFT AT NAIGAUM.—Mungla Dhakoo, residing at Naigaum, has reported to the police that somebody entered his premises on Tuesday in the afternoon, during his absence, and broke open a box containing gold and silver ornaments of the collective value of Rs. 591, all of which were stolen.

JURORS FINED.—At the Criminal Sessions of the High Court yesterday, when the Zanzibar murder case came on for trial, the following gentlemen were fined Rs. 50 each for failing to answer when called to serve on the special jury:—Messrs. Forbes Adam, Mr. Walter Lang, and Mr. J. G. Russell.

BOAT CAPSIZED.—A gig belonging to the s.s. Khandalla was capsized on Tuesday evening last near Cross Island. The captain and crew, who were in the boat at the time of the accident, were rescued by some men in a jolly-boat which was passing by at the time. The gig itself was secured by the police boat stationed at Carnac-bunder.

ASSAULT.—Sailoo Sayana and Narsoo Luximon were yesterday convicted by Mr. Dosabhoy Framjee of committing an assault on Yowsoo Dadabhoy on the previous night, on the Gowalia Tank-road. Prisoner No. 1, having been convicted for similar offences several times previously, was fined Rs. 25, or in default to undergo one month's rigorous imprisonment, and the other was fined Rs. 15, or in default fifteen days' similar imprisonment.

THE RECENT COLLISION AT BANDORA.—The adjourned hearing of the railway collision case, which was fixed for yesterday, before Mr. W. W. Loch, C. S., Railway Magistrate, has been postponed until Monday, as Mr. Tuttell, the Traffic Superintendent, together with some other railway officials, has proceeded to Surat to supervise the restoration of the damage done to the line of the B. B. and C. I. Railway by the floods.

AN OLD OFFENDER.—Cassia Bapoo, who was previously known to the police and his worship, was yesterday convicted by Mr. C. P. Cooper of a criminal breach of trust in respect of a coat, valued at Re. 1, belonging to Michael Mascarine. The prisoner was entrusted with the custody of the coat, which he subsequently pledged with a Marwaree. He was sentenced to two years' rigorous imprisonment.

ALLEGED DEFAMATION BY A TRADESMAN.—Yesterday at the Esplanade Police Court, before Mr. C. P. Cooper, the case of Mr. Nusserwanjee M. Patel, the Bombay agent to Messrs. Singer and Company, against Mr. H. A. Geyer, for defamation, was resumed. The accused, a Mr. Chitnavis, appeared for Messrs. Payne and Gilbert, appeared for the prosecution; and Mr. Lang, instructed by Messrs. Prescot and Winter, for the defence. The complainant, Mr. Patel, was further cross-examined by Mr. Lang, and re-examined by Mr. P. M. Mehta, after which the evidence of Mr. John Fritchley, a potter by profession, residing on the Grant-road, who had purchased sewing machines from the complainant, was recorded. The case for the prosecution was not closed when it was adjourned for further hearing to Wednesday next.

BREACH OF THE RAILWAY ACT.—Mr. P. C. Lovett, personal assistant to the Locomotive Superintendent, G. I. P. Railway, was yesterday charged before Mr. Dosabhoy Framjee with entering a second-class carriage of D. B. A. and G. I. Company's down local train whilst in motion, at the Pareli station, on the 6th ultimo. Hormusjee Bhicajee, the guard of the train in question, gave evidence to the effect that the defendant entered a second-class carriage of his train while it was at a stand at the Pareli station, but that on finding that his dog had been left behind, he came out of the carriage, secured his dog, and got into another carriage in front of the train, out of another second-class carriage and entered it. This statement was corroborated by a [illegible] months' [illegible] and also by passenger by the same train. The defendant was fined Rs. 10.

PRESENTATION AT BHOSAWUL.—A correspondent writes to us that the European residents of Bhosawul met at a ball given by them on the 26th ultimo, in one of the railway buildings, to present to Mr. A. E. Abbott, the late locomotive foreman of the G. I. P. Railway at that station, and to present him with a memorial of their good wishes. Mr. Abbott, we are informed, has been transferred to Bombay, after a lengthened stay at Bhosawul. The ball was a great success, the company dancing to a late hour to the strains of the G.I.P. Volunteer band. After supper the opportunity was taken by Mr. W. Reid, Inspector of Police, Abbott, *the esteemed* his friends had prepared for him—an elegant and beautiful cup, made, we are told, by Mr. E. L. Brandon, jeweller, of Bombay. Appropriate speeches were delivered by Mr. Perkins and Mr. Abbott; and the company broke up with enthusiastic lyrical declarations of good will towards the guest of the evening. A day or two after, the native employés of the G.I.P. Company presented Mr. Abbott with a gold chain and ring.

LOCUSTS IN THE POONA DISTRICT.—We are sorry to hear that locusts have caused much damage to the fields in the Bhivandee talooka.—*Poona Observer.*

LIBEL.—We learn that a libel case is now pending in the Belgaum Court; a Vakeel having been excommunicated, has filed a suit against 101 Brahmins, who are reported to have been greatly terrified on receiving their summons.—*Id.*

THE POONA CITY MUNICIPALITY.—There was a meeting of the Municipality on Monday morning, which was very fully attended, and when the following gentlemen were elected members of the Managing Committee by a majority of votes:—Mr. Richardson, Mr. Dorabji Padamji, Mr. Huri Rowji, Mr. Chhatre, Mr. Bhickaji, Mr. Namjoshi, and Mr. Ramchandra. This was the only difficulty found in getting together a sufficient number of subscribers. The advantages of telephonic communication between business firms and clubs and private houses is so very obvious that we have long wondered why no effort was made here to follow the lead of Bombay in this respect. Mr. Goodwin has informed us that the Bombay Company are prepared to lay private wires between any two houses, as well as to establish a Central Exchange. We may, in time, [illegible] between Poona and Bombay when the business man of Bombay will think as little of singing out his instruction to his Poona agent as he now thinks of posting him a letter.—*Id.*

THE BHOWNUGGUR COTTON MANUFACTURING COMPANY.

THE adjourned annual general meeting of the above company was held yesterday, Mr. C. H. B. Forbes presiding.

The chairman said that the meeting was adjourned on the 13th June last in order that a special audit might be made from the company's books at Bhownuggur, but for various reasons the auditors were not able to proceed to Bhownuggur. The accounts ought to be sent in to the Registrar by the 6th instant. If the accounts were passed at the meeting that day it would not prevent their being corrected at any future time if any error was discovered. He (the chairman) recommended the shareholders to pass the accounts that day subject to the report of the auditors.

It was proposed by Mr. Bejonjee Pallonjee that, as the special audit directed at the meeting on the 13th June last to be taken had not yet been completed, this meeting should be further adjourned to the 28th instant, at 12 o'clock noon, in order that the result of the audit might be made to the shareholders before the accounts were adopted.

Mr. G. W. Reid seconded the proposition, and it being put to the vote, was carried unanimously.

Mr. Reid then proposed that if either or both of the auditors were unable to proceed to Bhownuggur within a reasonable time, the board should be empowered to appoint another auditor or auditors in his or their place to proceed at once.

The proposition being seconded, was put to the vote and carried unanimously.

A vote of thanks to the chairman concluded the proceedings.

INSOLVENT DEBTORS' COURT.—JULY 4.

(Before the Hon'ble Mr. Justice SCOTT.)

THE following among other matters were heard before his lordship:—

RE MOMUNJEE NOORBHOY.

The Hon'ble Mr. Budroodin, on behalf of the insolvent, appeared to argue against a rule *nisi*, granted on the 6th ult., requiring the insolvent to show cause why the order of discharge granted him should not be set aside, and the matter of the petition re-heard or reviewed. Mr. Dhairyavan appeared to support the rule.

Mr. Budroodin said he opposed the rule on two grounds. The first was that Kevuiram Moolchund, the opposing creditor, had no *locus standi*, inasmuch as he had not filed the grounds of opposition, and so was not entitled to be heard.

The Commissioner.—His lordship has not yet finished.

Mr. Budroodin said he had not. No grounds of opposition had ever been filed. In the second place, according to section 56, the discharge could not be set aside under the circumstances.

Mr. Dhairyavan said there was no necessity to file the grounds, because there was no discharge after hearing the case. If his lordship granted a rule now, the whole matter would come on for a hearing and there would then be time for them to file the grounds three days before the hearing. At present, under section 56, the learned counsel asked simply for an order to review the discharge; and all that was necessary for him then was to make out a case for a review. When he got the order, the matter would be heard.

The Commissioner.—You admit you were taken by surprise. You did not appear to oppose the discharge.

Mr. Dhairyavan.—It was our ignorance. We thought that the grounds of opposition to the interim order which we had filed would be sufficient for opposing the insolvent at the hearing.

The Commissioner.—I must read section 56 with rule 8 of the court. I think you ought to have filed the grounds of opposition, and that, not having filed them, you cannot be heard.

Mr. Dhairyavan argued that an opposing creditor who had not opposed the discharge could come in and show that the schedule was fraudulent.

His lordship held that there was *laches* on the part of the creditor; and the rule *nisi* was therefore discharged.

RE MOOLJEE HUNSRAJ.

Mr. Manker, for the insolvent, applied for an interim order and leave to amend the schedule. The application was granted.

RE MADHOWRAO BHASKERJEE

The Hon'ble Mr. Budroodin, for the Official Assignee, moved under section 36 for the examination of Bhaskar Vishwanath Kesowrao Bhasker, and to fix a day for the hearing. The insolvent was indebted to different persons in large sums of money, and had been selling his property and making mortgages to his brother, who was now in possession of the insolvent's estate and effects, and was recovering the rents and profits. The application was granted, and the hearing fixed for this day fortnight.

RE HAJEE ISMAIL SEEDIK AND OTHERS.

Mr. Manker, for the insolvents, asked for leave to serve notices and to amend the schedule. The application was granted.

RE KUBERDAS AMBAIDAS.

Mr. Manker moved for the insolvent's discharge, which was granted.

RE MOWJEE VISRAM.

The Advocate-General, instructed by Messrs. Jefferson, Bhaishunker, and Dinshah, appeared for the insolvent. The Hon'ble Mr. Budroodin, instructed by Messrs. Hore, Conroy, and Brown, appeared for Tulloomal Chhamadas, an opposing creditor.

The Advocate-General moved for an extension of the interim order granted to the insolvent on the 21st February last, which was afterwards extended, and expired to-day. His lordship would remember that, in the case of Bewis *vs.* Turner, his lordship gave judgment against the defendant for a very considerable sum of money. The bone of contention in the case was whether or not the plaintiffs had accounted for all the consignments of wool made to Europe by the insolvent through them. A reference to the Commissioner was necessary, and it was the duty of the Official Assignee, as representing the insolvent, to require the plaintiffs to account to him for the whole of the consignments of wool. The insolvent's account books were kept in the native language, and as Mr. Turner could not read them, he found the insolvent's presence and assistance necessary to examine the accounts.

The Official Assignee suggested an extension of the interim order for a month.

Mr. Budroodin, in opposing the application, said three applications for an interim order, made by the insolvent, had been refused. He did not, however, object to a reasonable extension.

His lordship granted an extension of the interim order for a month.

DISCHARGES.

The undermentioned insolvents were granted discharges:—Putoba Vitteba Rowtay: liabilities, Rs. 1,533. Balu Crushnajee Chile, Rs. 1,709. Michael Alexander Kilfoil, Rs. 6,000. Dayabhoy Jalbhoy Shroff, Rs. 750. Bomonjee Merwanjee Mehta, Rs. 932. Shaik Mahomed Ahmed Bagdadee, Rs. 1,380. Luckmidas Ganesh Pandy, Richard Carty, and Pestonjee Dorabjee Laskal.

N.-W. PROVINCES, PUNJAB, AND OUDH.

THE BENARES BOAT BRIDGE.—The boat bridge at Benares was removed on June 28th. Passengers will now have to cross by boats.—*Pioneer.*

THE ACTING REGISTRARSHIP.—The Acting Registrarship of the High Court, Appellate Side, has, we are informed, been conferred on Mr. G. Mackenzie, a Junior Civil Servant of twelve or thirteen years standing, and therefore not very far below Mr. Weir in the list. Mr. Mackenzie is at present acting Sub-Collector and Joint Magistrate of Tanjore, and is expected at Madras in the course of a day or two, when he will relieve Mr. Weir, who will proceed at once to the end of this week to take up his appointment as Acting Chief Court and Sessions Judge of Coimbatore.—*Madras Times.*

OFFICIAL CHANGES.—Mr. M. L. Ferrar, C.S., on return from leave, has been appointed to officiate as Commissioner of the Fyzabad Division, Mr. H. C. Irvin officiating as Deputy Commissioner of Bahraich. Mr. H. W. Gricn, Deputy Commissioner of Khiri, and Mr. J. H. Twigg, Collector of [illegible] months' privilege leave, Mr. W. E. Wells and Mr. [illegible] respectively officiating for them. Mr. H. M. Bird, Joint Magistrate, is transferred from Agra to Cawnpore; and Mr. F. W. Brownrigg, Assistant Magistrate, from Allahabad to F

Debenture Bonds to the extent of eight thousand rupees will be paid off half-yearly and the Debenture Bonds to be paid off will be determined by yearly drawing, the first to be in the month of August, 1888, and thereafter in the months of February and August of each year, and the last in the month of February, 1913, of which notice will be given in one or more of the local papers. The numbers of the Debenture Bonds drawn to be paid off will be notified in one or more of the local papers, and no interest will be paid on such Debentures after the 15th March or 15th September next following. The drawings will take place at the Municipal Office and be conducted by the Finance Sub-Committee of the Municipality.

III. The form of Debenture Bonds will be that given below. Each Debenture will be issued for the sum of Rs. 500.

IX. Debentures will be issued as soon as possible after receipt of the amount of allotment.

X. The deposit on tenders which may not be accepted will be returned on application.

CHRONOGRAPH WATCHES,

OF A NEW AND IMPROVED SYSTEM.

WE have just received a consignment of NEW RACE OR CHRONOGRAPH WATCHES which for durability, accuracy, precision, and convenience leave nothing to be desired.

The Chronograph hand is in front of the watch over the hour and minute hands. The cases are extra strong, with a solid cover on the back and a glass inside to protect the work.

The general objections to the Chronographs with second hand and glass on the back were that those glasses often broke, and each time necessitated a cleaning; that the glasses did not thoroughly protect the works from dust; and that to move the regulator it almost required the help of a watchmaker.

All these serious drawbacks of an otherwise good watch have been avoided in the construction of our new and improved Chronograph watches.
